## EDUCATION

---

<b>University of Utah</b> , Salt Lake City, USA <i>Ph.D. student in Electrical and Computer Engineering</i>	August. 2020 - Present
<b>École Polytechnique Fédérale de Lausanne</b> , Lausanne, Switzerland <i>Master of Science in Computer Science</i>	Sep. 2013 - Feb. 2016
<b>National Chiao Tung University</b> , Hsinchu City, Taiwan <i>Master of Science in Communication Engineering</i>	Sep. 2005 - Aug. 2007
<b>National Chung Cheng University</b> , Chiayi City, Taiwan <i>Bachelor of Science in Electrical Engineering</i>	Sep. 2001 - Jun. 2005

## RESEARCH EXPERIENCE

---

<b>Energy efficient in-situ computing</b> <i>Project</i> Implemented an energy efficient framework for the purpose of Arctic animal classification.	Feb. 2019 - Dec. 2019
<b>Power data analytics and visualization</b> <i>Side Project</i> Performed data cleansing and developed visualization framework of power data in Tromsø.	May 2019 - Aug. 2019
<b>Component analysis of sands from Nigeria</b> <i>Side Project</i> Developed classification techniques to obtain the components of sands and make suggestions if targeted sands are feasible elements for bricks for constructions in Nigeria.	Jan. 2018 - Dec. 2018
<b>Estimation of nationality through sports in Twitter</b> <i>Side Project</i> Analyzed twitter in UAE and estimated the proportion of nationalities based on sports preferences.	Jan. 2018 - Jun. 2018
<b>Protection against Data Profiling by Adversarial Cloud Applications</b> <i>Master Thesis Project</i> Designed and developed protection mechanisms for protecting users' data on personal cloud-storage providers against data analysis by 3rd Party Apps.	Sep. 2015 - Jan. 2016
<b>Bootstrap recommender systems with the crowdsourcing</b> <i>Semester Project</i> Proposed an explicit technique to alleviate the impact caused by cold start in recommender systems by taking advantages of crowdsourcing platform.	Feb. 2014 - Jan. 2015
<b>Random Walk</b> <i>Team Project</i> Used Python to implement a web crawler to gather public events and activities in Europe which are used as references for recommending traveling routes to tourists.	Feb. 2014 - Jun. 2014

## High Value Cargoes' Networks

Feb. 2014 - Jun. 2014

### Team Project

Developed a framework for historians to add newly-found data and visualize the routes of high value cargoes during the period of the Venice Atlas.

## WORK EXPERIENCE

---

### The Arctic University of Norway, Tromsø, Norway

Feb. 2019 - Dec. 2019

#### Doctoral Researcher

Implemented an energy efficient framework which is used to classify Arctic wild animals in-situ for the purpose of investigating in the impact of global warming over animals living in Arctic tundra.

### Khalifa University, Abu Dhabi, United Arab Emirates

Jan. 2018 - Nov. 2018

#### Assistance Researcher

Automated and parallelized python-meep for materials modeling at the nanoscale, process measured data of self-grown graphen, develop data visualization frameworks and apply autoencoder technique to speed up simulations.

### CERN, Genève, Switzerland

Mar. 2015 - Aug. 2015

#### Software Developer

Developed softwares to discover devices on the network, perform consistency checking with the installation databases, and monitor the status of the data acquisition network.

### National Chiao Tung University, Hsinchu, Taiwan

Jan. 2009 - Jun. 2013

#### Research Assistant

- Constructed a data center for storing brain images in a distant health care project.
- Designed an load balancing algorithm to streaming videos.
- Constructed wireless sensor networks to monitor structural health, such as bridges.
- Coordinated and built surveillance systems in a campus and gadgets to guide blind students.
- Constructed a multimedia streaming system and deployed it in a vision-based intelligent environment.

## SKILLS

---

### Languages

Mandarin (native), English (fluent)

### Computer Languages

C/C++, Java, Python, Javascript, Node.js, PHP, HTML, SQL

## PUBLICATION

---

### Semester Project Report

- Cheng-Hsiang Chiu, "Bootstrapping recommender systems with the crowdsourcing II," École Polytechnique Fédérale de Lausanne, 2015.
- Cheng-Hsiang Chiu, "Bootstrapping recommender systems with the crowdsourcing," École Polytechnique Fédérale de Lausanne, 2014.

### Master Thesis

- Cheng-Hsiang Chiu, "Protection against Data Profiling by Adversarial Cloud Applications," Master Thesis, Department of Computer Science, École Polytechnique Fédérale de Lausanne, 2016.
- Cheng-Hsiang Chiu, "Process Control in Streaming Server," Master Thesis, Department of Communication Engineering, National Chiao Tung University, 2007.

## Journal Papers

- Yu-Cheng Chiou, Tuza Adeyemi Olukan, Mariam Ali Almahri, Harry Apostoleris, Cheng- Hsiang Chiu, Chia-Yun Lai, Jin-You Lu, Sergio Santos, Ibraheem Almansouri, and Matteo Chiesa, "Direct Measurement of the Magnitude of van der Waals interaction of Single and Multilayer Graphene," *ACS LANGMUIR*, 2018.

## Conference Papers

- Yi-Yuan Chen, Yuan-Yao Tu, Cheng-Hsiang Chiu, and Yong-Sheng Chen, "An Embedded System for Vehicle Surrounding Monitoring," *IEEE Conference on Power Electronics and Intelligent Transportation System*, 2009.
- Cheng-Hsiang Chiu, Pang-Chan Hung, Jen-Hui Chuang, and Shing-Lu Huang, "Object Tracking under Sensing Lighting Equipments," *IEEE Conference on Industrial Electronics and Applications*, 2010.
- Der-Cherng Liaw, Cheng-Hsiang Chiu, Chia-Wei Yeh, Chia-Ming Chang, and Hsiao-Jen Hsieh, "A Server Load Balancing Design for Peer-To-Peer Network," *International Conference on Computers, Communications, Control and Automation*, 2011.
- Der-Cherng Liaw, Chia-Wei Yeh, Cheng-Hsiang Chiu, Chia-Ming Chang, and Hsiao-Jen Hsieh, "A Load Balancing Scheme for Web Server Design," *International Conference on System Science and Engineering*, 2011.
- Der-Cherng Liaw, Yi-Hung Hsieh, Jing-Hong Lai, and Cheng-Hsiang Chiu, "A Network Topology Design for Structural Health Monitoring," *Asian Control Conference*, 2011.
- Der-Cherng Liaw, Jing-Hong Lai, Cheng-Hsiang Chiu, and Jia-Hong Liao, "A Wireless Sensor Network Platform for Indoor Surveillance System," *International Conference on System Science and Engineering*, 2011.
